

Himax Technologies, Inc. to Attend Nomura Corporate Access Day at CES 2013 on January 8th and 9th in Las Vegas

TAINAN, Taiwan – December 19, 2012 – Himax Technologies, Inc. (Nasdaq: HIMX) (“Himax” or “Company”), a leading supplier and fables manufacturer of display drivers and other semiconductor products, today announced that the Company will meet with investors at Nomura Securities’ Corporate Access event to be held in Las Vegas on January 8th and 9th, 2013 at the Bellagio Las Vegas Hotel.

Nomura Securities’ Corporate Access event will be held concurrently with the International Consumer Electronics Show (“CES”), one of the largest trade industry trade shows in the world. Himax will meet with investors for one-on-one meetings. Investors should contact their institutional sales representative at Nomura if they are interesting in meeting the Company at CES.

About CES

With more than four decades of success, the International Consumer Electronics Show (CES) reaches across global markets, connects the industry and enables CE innovations to grow and thrive.

The International CES is owned and produced by the Consumer Electronics Association (CEA), the preeminent trade association promoting growth in the \$195 billion U.S. consumer electronics industry. More than 2,000 companies enjoy the benefits of CEA membership, including legislative advocacy, market research, technical training and education, industry promotion, standards development and the fostering of business and strategic relationships. CEA also owns and produces the International CES – The Global Stage for Innovation. All profits from CES are reinvested into CEA’s industry services.

About Himax Technologies, Inc.

Himax Technologies, Inc. (HIMX) is a fables semiconductor solution provider dedicated to display imaging processing technologies. Himax is a worldwide market leader in display driver ICs and timing controllers used in TVs, laptops, monitors, mobile phones, tablets, digital cameras, car navigation, and many other consumer electronics devices. Additionally, Himax designs and provides controllers for touch sensor displays, LCOS micro-displays used in palm-size projectors and head-mounted displays, LED driver ICs, power management ICs, scaler products for monitors and projectors, tailor-made video processing IC solutions and silicon IPs. The company also offers digital camera solutions, including CMOS image sensors and wafer level optics, which are used in a wide variety of applications such as mobile phone, tablet, laptop, TV, PC camera, automobile, security and medical devices. Founded in 2001 and headquartered in Tainan, Taiwan, Himax currently employs 1,400 people from three Taiwan-based offices in Tainan, Hsinchu and Taipei and country offices in China, Korea, Japan and the US. Himax has 1,657 patents granted and 1,504 patents pending approval worldwide as of September 30, 2012. Himax has retained its position as the leading display imaging processing semiconductor solution provider to consumer electronics brands worldwide.

Forward Looking Statements

Factors that could cause actual events or results to differ materially include, but not limited to, general business and economic conditions and the state of the semiconductor industry; market acceptance and competitiveness of the driver and non-driver products developed by the Company; demand for end-use applications products; reliance on a small group of principal customers; the uncertainty of continued success in technological innovations; our ability to develop and protect our intellectual property; pricing pressures including declines in average selling prices; changes in customer order patterns; changes in estimated full-year effective tax rate; shortages in supply of key components; changes in environmental laws and regulations; exchange rate fluctuations; regulatory approvals for further investments in our subsidiaries; our ability to collect accounts receivable and manage inventory; the uncertainty of success in our Taiwan listing plan which is still under review by Taiwan regulatory authorities and subject to change due to, among other things, changes in either Taiwan or U.S. authorities' policies and Taiwan regulatory authorities' acceptance of the Company's Taiwan listing application and other risks described from time to time in the Company's SEC filings, including those risks identified in the section entitled "Risk Factors" in its Form 20-F for the year ended December 31, 2011 filed with the SEC, as may be amended
