

Himax Technologies to Attend Credit Suisse Asian Technology and Oppenheimer Emerging Innovations Conferences in September 2013

TAINAN, Taiwan – September 3, 2013 – Himax Technologies, Inc. (Nasdaq: HIMX) (“Himax” or “Company”), a leading supplier and fabless manufacturer of display drivers and other semiconductor products, today announced the Company will attend two investor conferences in September 2013. Details about the conferences are below.

Conference: Credit Suisse Asian Technology Conference 2013
Date: September 11-13, 2013
Location: Grand Hyatt Hotel, Taipei TAIWAN

Conference: Oppenheimer 1st Emerging Innovations Conference: Next Gen Display & Touch Technologies
Date: September 17, 2013
Location: Grand Hyatt, New York City US

The Company will host 1-1 meetings with conference attendees during each event. If you are looking to schedule a 1-on-1 meeting with the Company, please contact the respective conference organizers above or Himax’s investor relations contacts listed below.

About Himax Technologies, Inc.

Himax Technologies, Inc. (HIMX) is a fabless semiconductor solution provider dedicated to display imaging processing technologies. Himax is a worldwide market leader in display driver ICs and timing controllers used in TVs, laptops, monitors, mobile phones, tablets, digital cameras, car navigation, and many other consumer electronics devices. Additionally, Himax designs and provides controllers for touch sensor displays, LCOS micro-displays used in palm-size projectors and head-mounted displays, LED driver ICs, power management ICs, scaler products for monitors and projectors, tailor-made video processing IC solutions and silicon IPs. The company also offers digital camera solutions, including CMOS image sensors and wafer level optics, which are used in a wide variety of applications such as mobile phone, tablet, laptop, TV, PC camera, automobile, security and medical devices. Founded in 2001 and headquartered in Tainan, Taiwan, Himax currently employs around 1,600 people from three Taiwan-based offices in Tainan, Hsinchu and Taipei and country offices in China, Korea, Japan and the US. Himax has 1,981 patents granted and 1,196 patents pending approval worldwide as of June 30, 2013. Himax has retained its position as the leading display imaging processing semiconductor solution provider to consumer electronics brands worldwide.

Forward Looking Statements

Factors that could cause actual events or results to differ materially include, but not limited to, general business and economic conditions and the state of the semiconductor industry; market acceptance and competitiveness of the driver and non-driver products developed by the Company; demand for end-use applications products; reliance on a small group of principal customers; the uncertainty of continued success in technological innovations; our ability to develop and protect our intellectual property; pricing pressures including declines in average selling prices; changes in customer order patterns; changes in estimated full-year effective tax rate; shortages in supply of

key components; changes in environmental laws and regulations; exchange rate fluctuations; regulatory approvals for further investments in our subsidiaries; our ability to collect accounts receivable and manage inventory and other risks described from time to time in the Company's SEC filings, including those risks identified in the section entitled "Risk Factors" in its Form 20-F for the year ended December 31, 2012 filed with the SEC, as may be amended.
